

Can you help the Mallee CMA find frogs?

STEP 1 Create Account

Head to www.frogid.net.au and create an account. On the profile page go to “My group” tab and search for “Mallee CMA Frogs”.

STEP 2 Download App

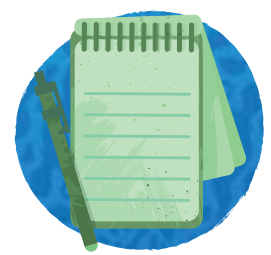

Download the FREE FrogID app, on iOS or Android.

STEP 3 Explore Habitat

Get out to the floodplain and/or a local wetland and discover different frogs.

STEP 4 Record & Submit

Record the frog calls you hear out in the field with the FrogID app. Check back later online to find your frog calls identified by the Australian Museum and Audio DNA experts.

RESOURCES

The FrogID site can be found at www.frogid.net.au and has excellent videos on how to use the app.

FrogID is a citizen science project run by the Australian Museum. The project uses audio (sound) of unique frog calls to identify the various species and record their locations.
